04

Questions

If you have any concerns or questions, please do not hesitate to ask

The HeliPPE story

From the start to now

2014

HeliPPE won the first order for Siemens Gamesa where we started with 40 suits

2016

An increase in customers located abroad, especially in Germany

2018

Expanded into the market of SOLAS equipment and started to deliver PPE to CTVs

Hansen Protection invested in HeliPPE and acquired 50 % of the company

2020

HeliPPE are looking to expand into the following countries: The Netherlands, USA, Japan, and Taiwan

2013

HeliPPE was founded with the main focus being to rent PPE to helicopters going to offshore wind parks

2015

A customer portfolio was gathered, and the first employee was hired

2017

HeliPPE expanded to Germany with location in Emden

2019

HeliPPE expanded to the United Kingdom with a location in Grimsby to secure full coverage in the North Sea. Our SOLAS service stations were approved by DMA & MCA. Furthermore, HeliPPE became ISO 9001 & 14001 certified

Our approvals

We are more than just a logistics company..

Our locations

Where to find your local HeliPPE office and service station

More locations in the US are been investigated

DATA PROTECTION

Your data is safe with us

Our own system

We have our own cloud-based system which enables you to have a full overview of the equipment you have rented from us

The data we hold

We are in possession of the following data: name, address, postal code / residence, phone number, email address, and passport numbers

Microsoft Azure server

We are using Microsoft Azure as our platform which gives us the highest level of security and protection of the data we hold

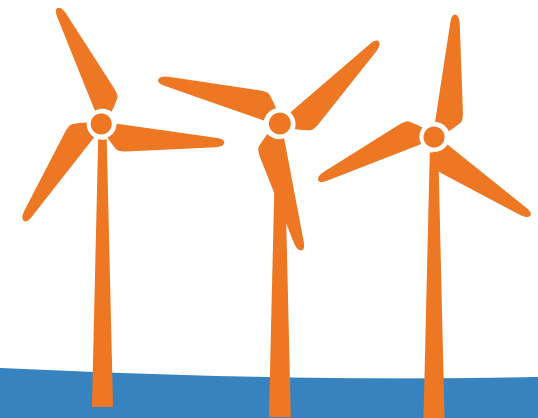

We follow the GDPR regulation

We are fully aware of the GDPR regulation and comply with it. If you have any questions in regards to how this is handled please write to: info@helippe.com

How can we help your business

Our offering

We take care of everything

The only thing you would need to think about is which sizes in PPE you need, and where and when we shall deliver

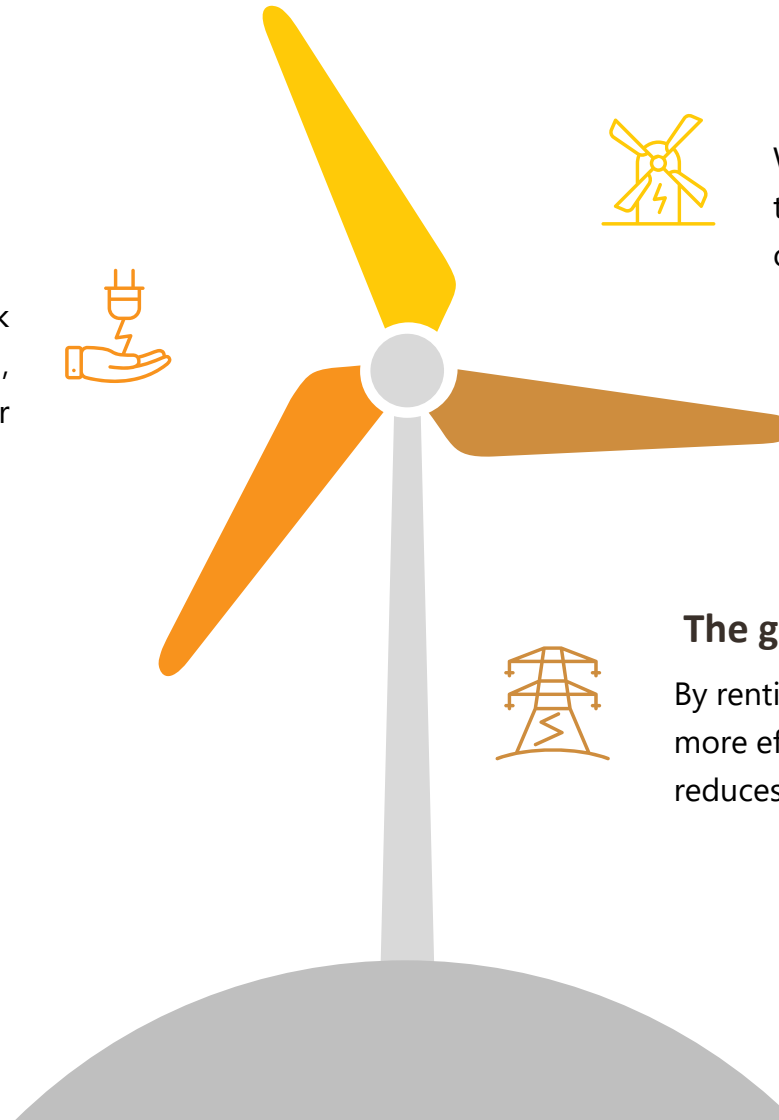

Save money on your PPE

We offer an opportunity for companies to save money without compromising on quality

The greener solution

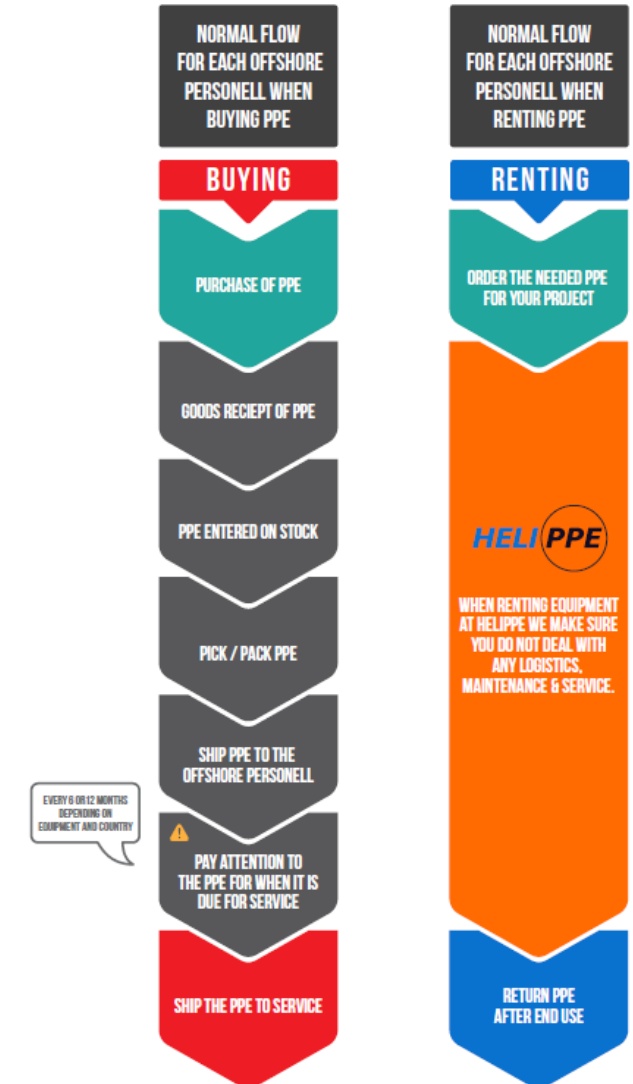

By renting your PPE it will be used more efficiently which in the end reduces the carbon footprint

Buying and Renting comparison

How your company can gain from renting PPE

FEATURES	Buying	Renting
Better cash flow	✗	✓
No expenses to buying, servicing and repairing PPE	✗	✓
The perfect equipment for your needs	✓	✓
Flexibility and the possibility to save money in every step of a project	✗	✓
Always a full overview over equipment, service dates, and certificates	✗	✓
Better for the environment	✗	✓

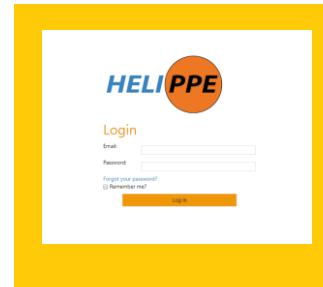

Our system

You can get a full overview of everything you rent through us

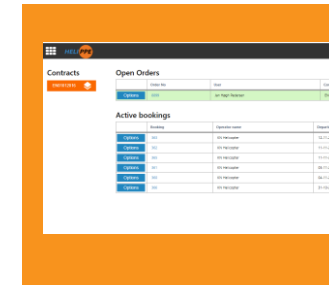

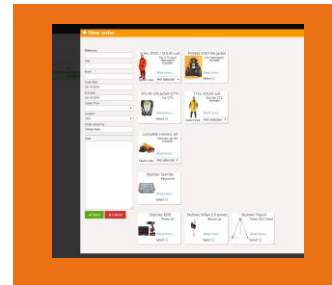

Create an order

If wanted, it is also possible for you to create an order directly in our system. Add the equipment that you need, and we will deliver it

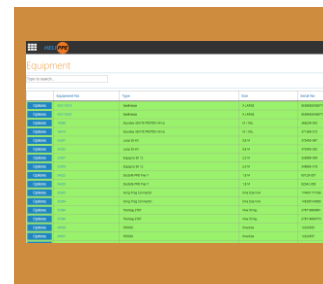

Login

It is possible to log in to our system where all orders can be tracked

View equipment status

You can easily check the equipment status in our colour coded system. You can also access all certificates and other product details that you need

View your orders

When logged in we can define how much access you or others from your company shall have. Should some be able to see everything, and others be limited in their access?
